## STORYBOARD ARTIST

## Profile

Storyboard artist with 8 years of experience in storyboarding. I have collaborated with many advertising companies and have experience in creating storyboards for short films, movies, video games, and animation.

I focus on creating clear and effective visual narratives, adapting to different styles and the specific needs of each project. I have experience working closely with creative teams, interpreting scripts, and translating ideas into storyboards.

I have good spatial vision, knowledge of perspective, a sense of composition, and an understanding of light and editing.

## Work Experience
